|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|--|--|--|--|--|--|--|
| - I | Total Estimated Risk = Severity x Likelihood Hazards with significance factors equal to or greater than 16 or a Severity Rating of 4 or 5 warrants the use of additional controls and an action plan that has been reviewed | | | | | | | | |
| Score | Severity / Consequence | Effects | | | | | | | |
| 1 | 1 NEGLIGIBLE Negligible injury or health implications with no treatment or first-aid only. | | | | | | | | |
| 2 | 2 MINOR No-Lost Time Injury(ies) and no chronic effects, but treatment beyond first aid may be required. | | | | | | | | |
| 3 | MODERATE | Person suffering Lost Time Injury, RIDDOR, hospital treatment or job restriction/business affected by outbreak | | | | | | | |

| 4 | SERIOUS | Illness resulting in time off work long term/ill health | | | | |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|--|--|--|--|
| 5 | MAJOR | Fatality | | | | |
| Likelihood of Potential Exposure to this Hazard | | | | | | |
| Score | Definition | | | | | |
| 1 | Little or no chance of occurrence; would require an extraordinary combination of factors for the situation to result. | | | | | |
| 2 | Not likely to occur in normal circumstances | | | | | |
| 3 | Possible when additional factors are present but otherwise unlikely to occur. | | | | | |
| 4 | Such an event is known to have occurred and is likely to re occur. | | | | | |
| 5 | Almost inevitable that an incident would result / occurs frequently | | | | | |

| Risk Rating | | Severity / Consequence | | | | |
|-------------|---------------------|------------------------|-------------|----------------|---------------|-------------|
| | | 1. Negligible | 2. Minor | 3. moderate | 4. Serious | 5. Major |
| | 1. Very unlikely | 1 | 2 | 3 | 4 | 5 |
| Likelihood | 2. Unlikely | 2 | 4 | 6 | 8 | 10 |
| | 3. Possible | 3 | 6 | 9 | 12 | 15 |

| Rating Bandings | | | | | | | | |
|---------------------------------------------|--------------------------------------------------------------|------------------------------------------------------------------------------------------------------|--|--|--|--|--|--|
| Low risk (1-6) | Medium Risk (8-12) | High Risk (15-25) | | | | | | |
| Continue, but review periodically to ensure | Continue, but implement additional reasonably | STOP THE ACTIVITY- | | | | | | |
| controls remain effective | practicable controls where possible and monitor regularly | Identify new controls. Activity must not proceed until risks are reduced to a low or medium level | | | | | | |
